

ACC Sectors in Denmark

We have many different ACC Sectors in Denmark. See below to Identify which one is for you.

Notice that an entire area is covered even if only one sector in that area is online.

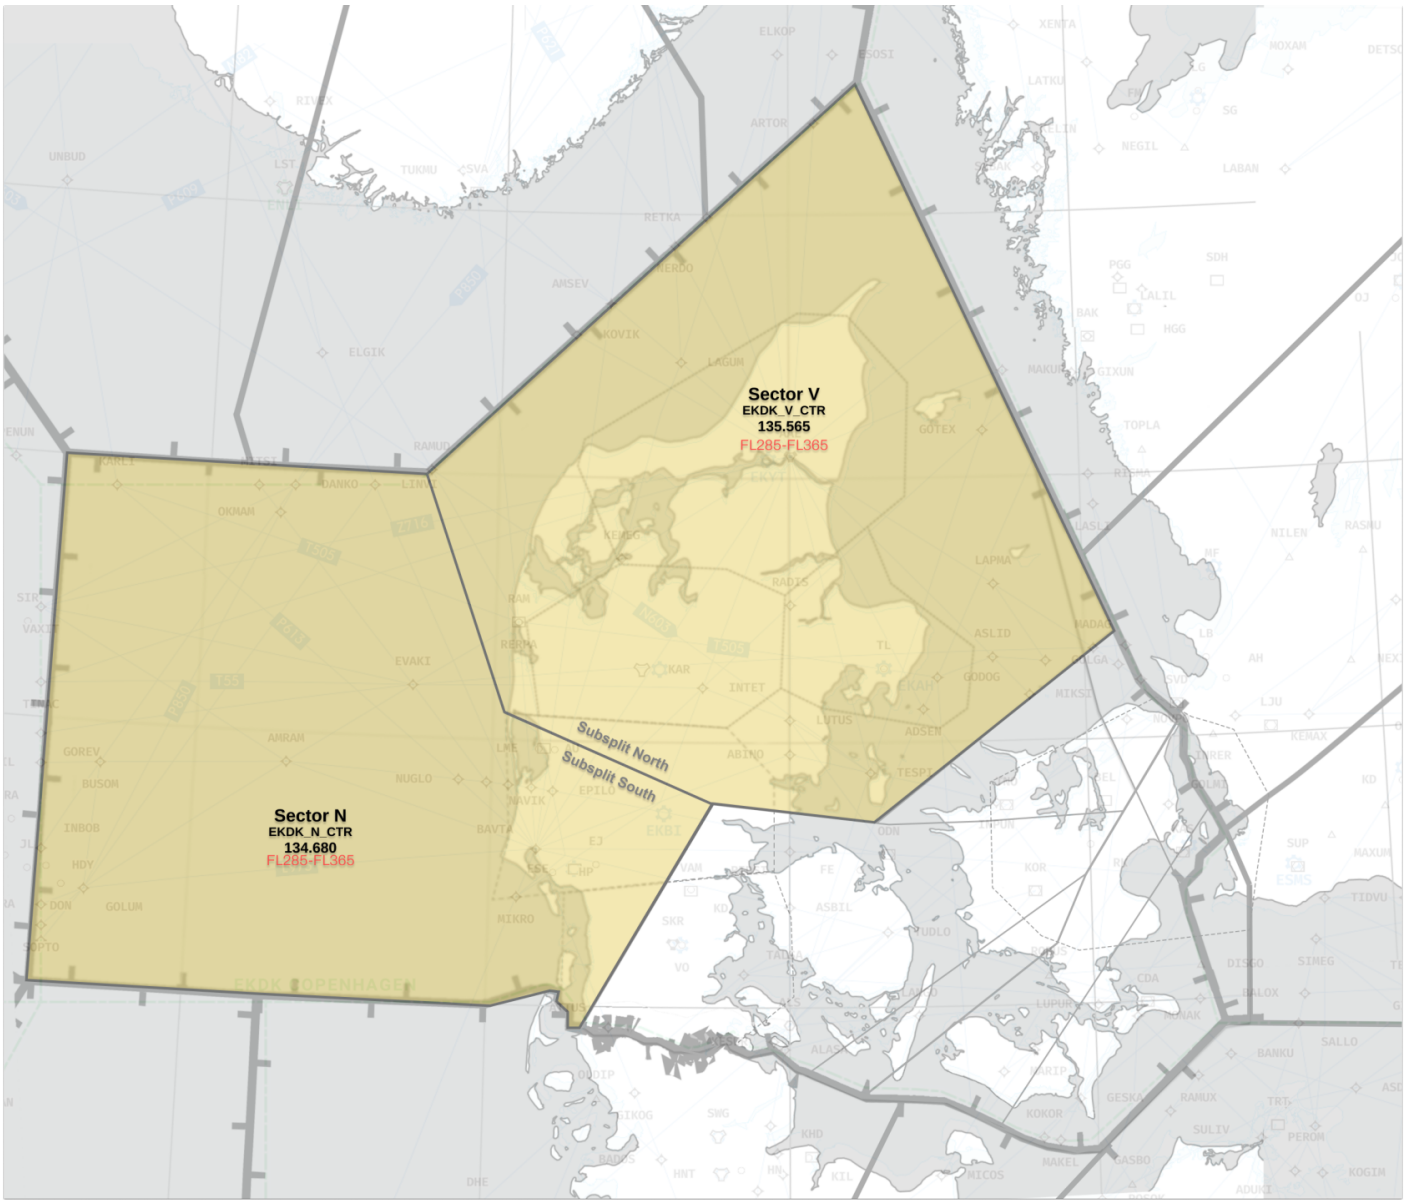

Notice that these areas are segregated and no online controller in an area will control other areas

EKDK_CTR will provide traffic service for the entire Copenhagen FIR if no other ATC areas are online

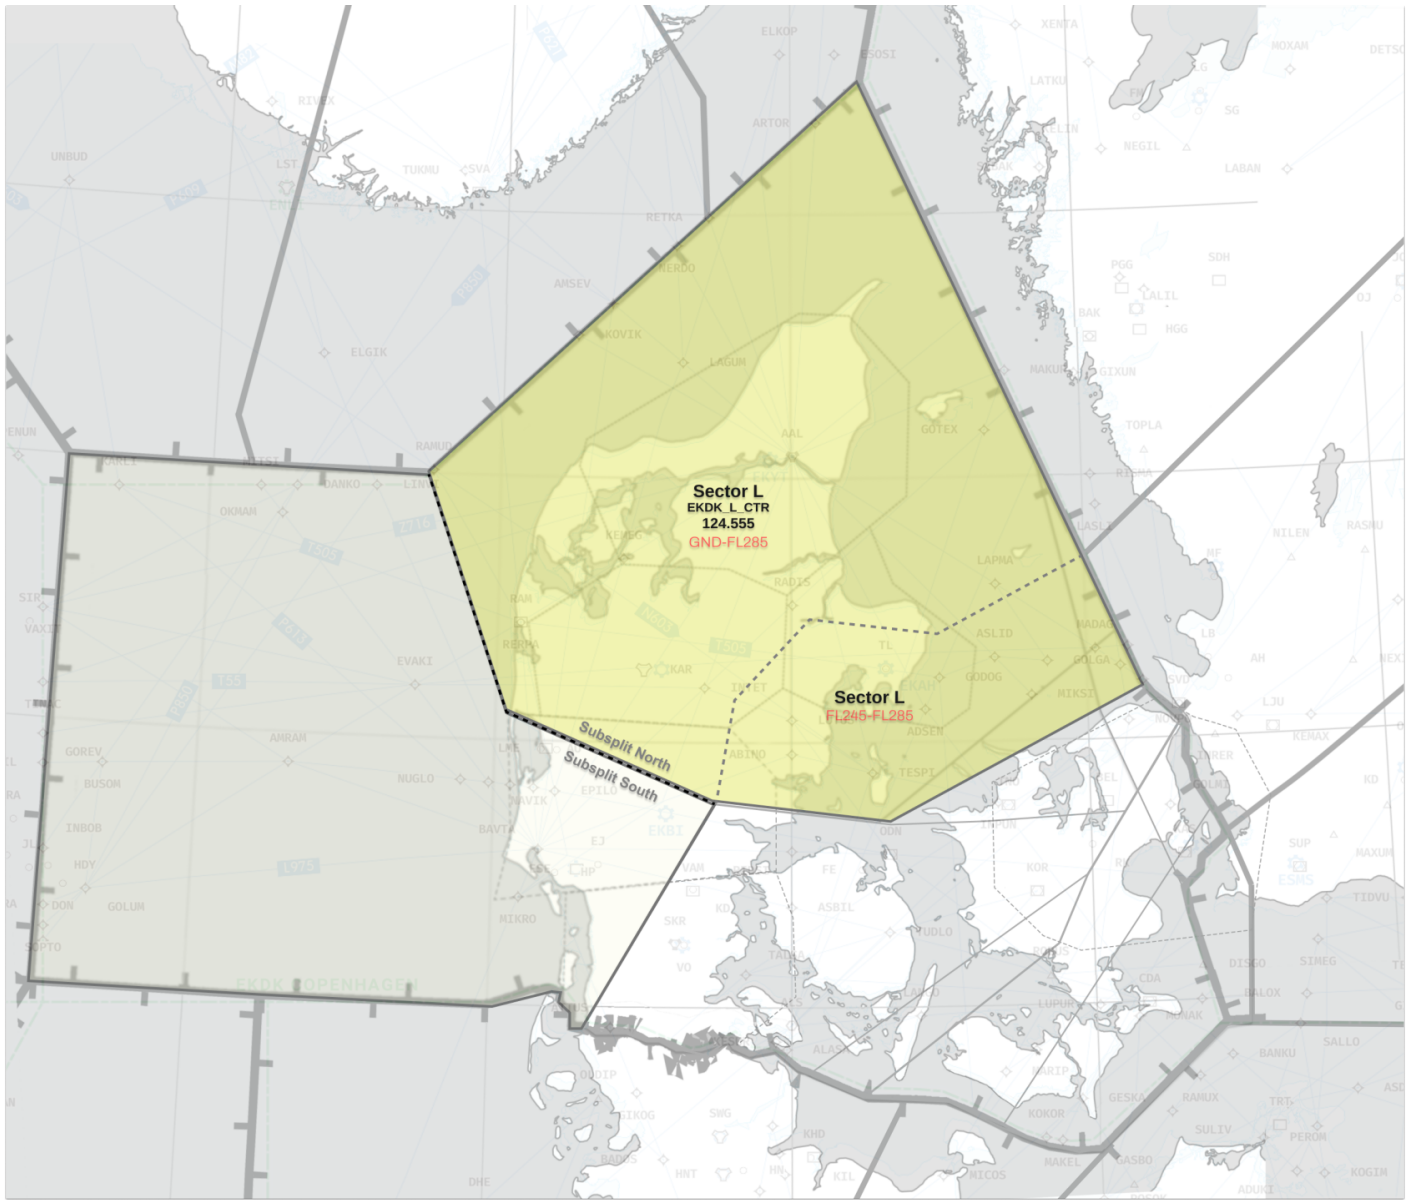

If you are in doubt please visit [Vatglasses](#) or [VATSIM Radar](#) for the most accurate sectorization and top-down coverage.

Area West

Sectors covering all levels:

Sectors up to FL285 only:

Area	Frequency	Callsign	Name
Area-West	124.555	EKDK_L_CTR	Copenhagen Control
	135.565	EKDK_V_CTR	
	134.680	EKDK_N_CTR	

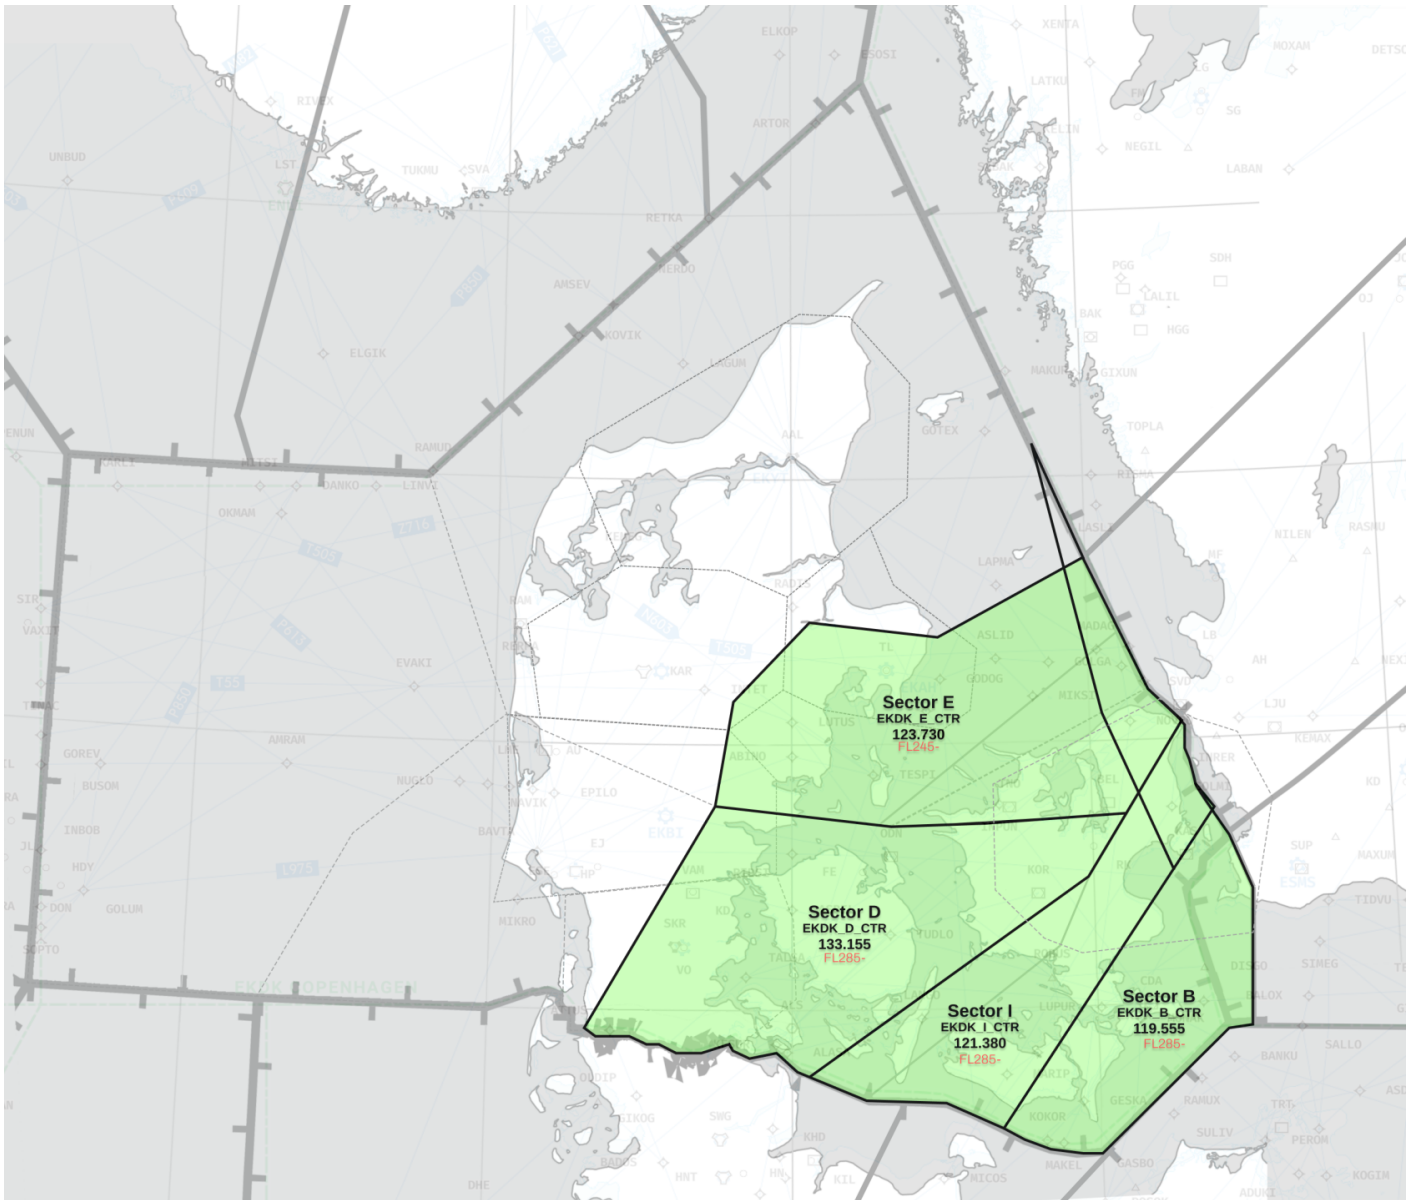

• Note: sectors L controls airspace below FL285 only.

Airports covered when local ATC is offline:

- EKYT (Aalborg) - Sector L / V
- EKKA (Karup) - Sector L / V
- EKAH (Aarhus) - Sector L / V
- EKBI (Billund) - Sector L / V

- EKEB (Esbjerg) - Sector L / V
- EKSP (Skrydstrup) - Sector N
- EKSB (Sonderborg) - Sector N

Area Lower-East

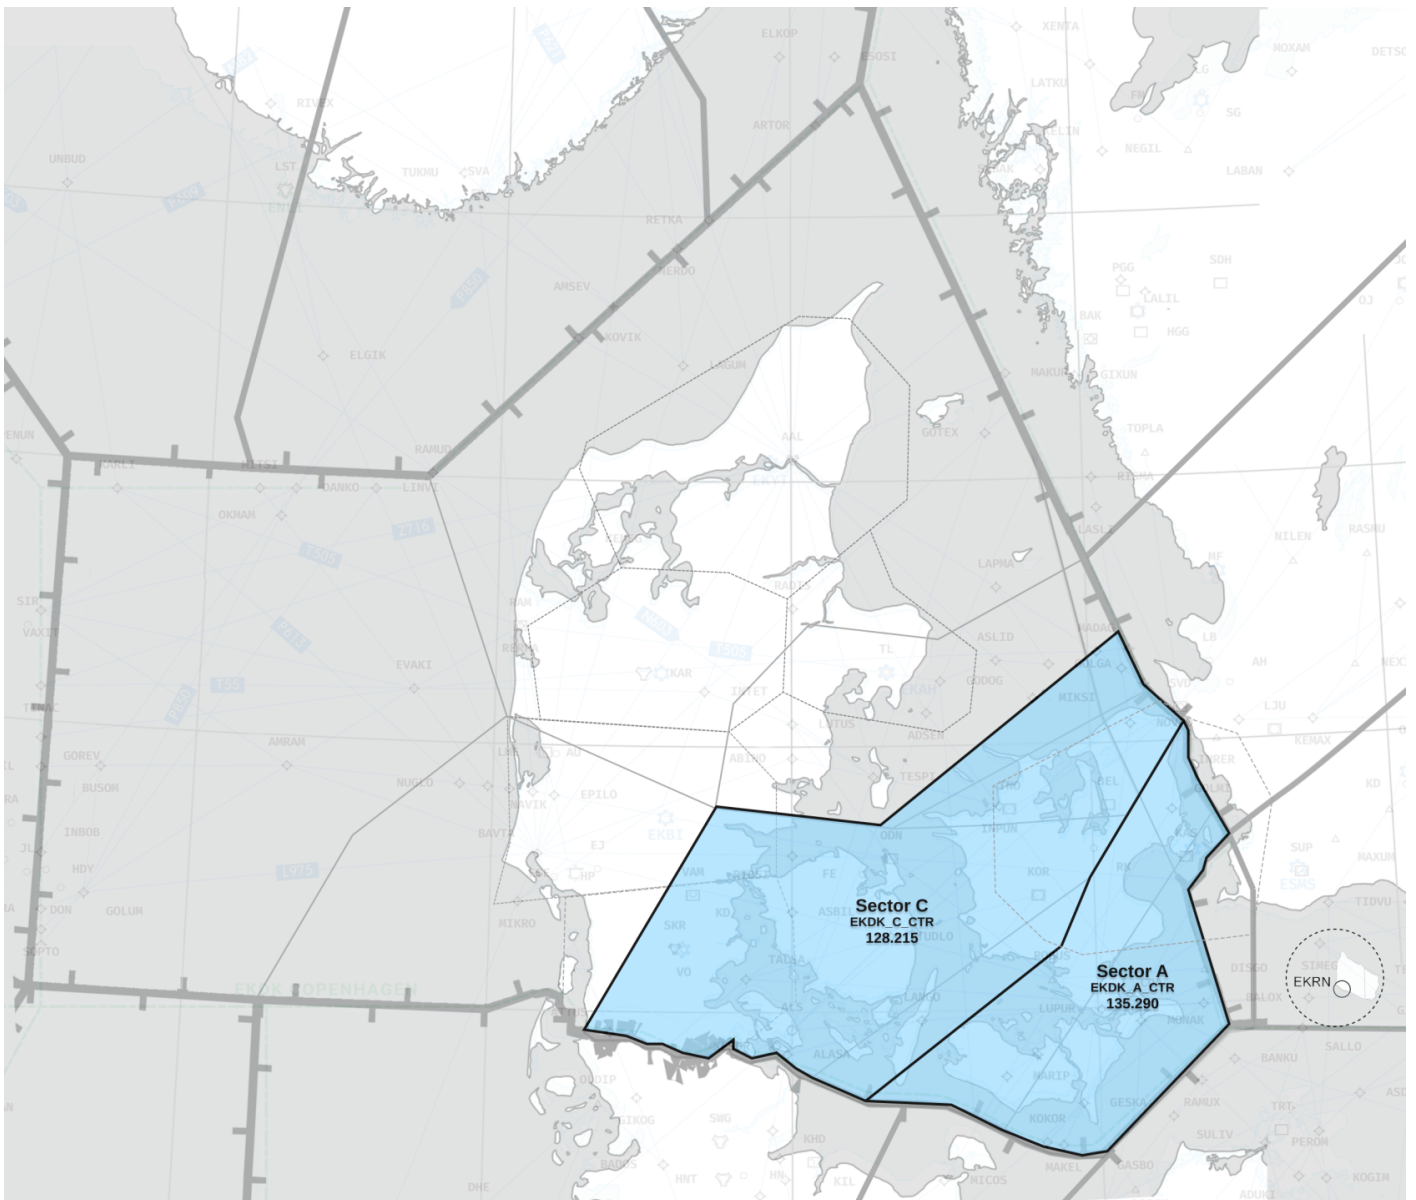

Area	Frequency	Callsign	Name
Lower East	119.555	EKDK_B_CTR	Copenhagen Control
	121.380	EKDK_I_CTR	
	133.155	EKDK_D_CTR	
	123.730	EKDK_E_CTR	

- Note: sectors in Lower East only control airspace up to FL285. When Lower-East is offline, airspace is assumed by Upper-East.

Airports covered when local ATC is offline

- EKCH (Copenhagen) - Sector I/B
- EKRK (Roskilde) - Sector I/B
- EKOD (Odense) - Sector D/E

Area Upper-East

Area	Frequency	Callsign	Name
Upper East	135.290	EKDK_A_CTR	Copenhagen Control

128.215

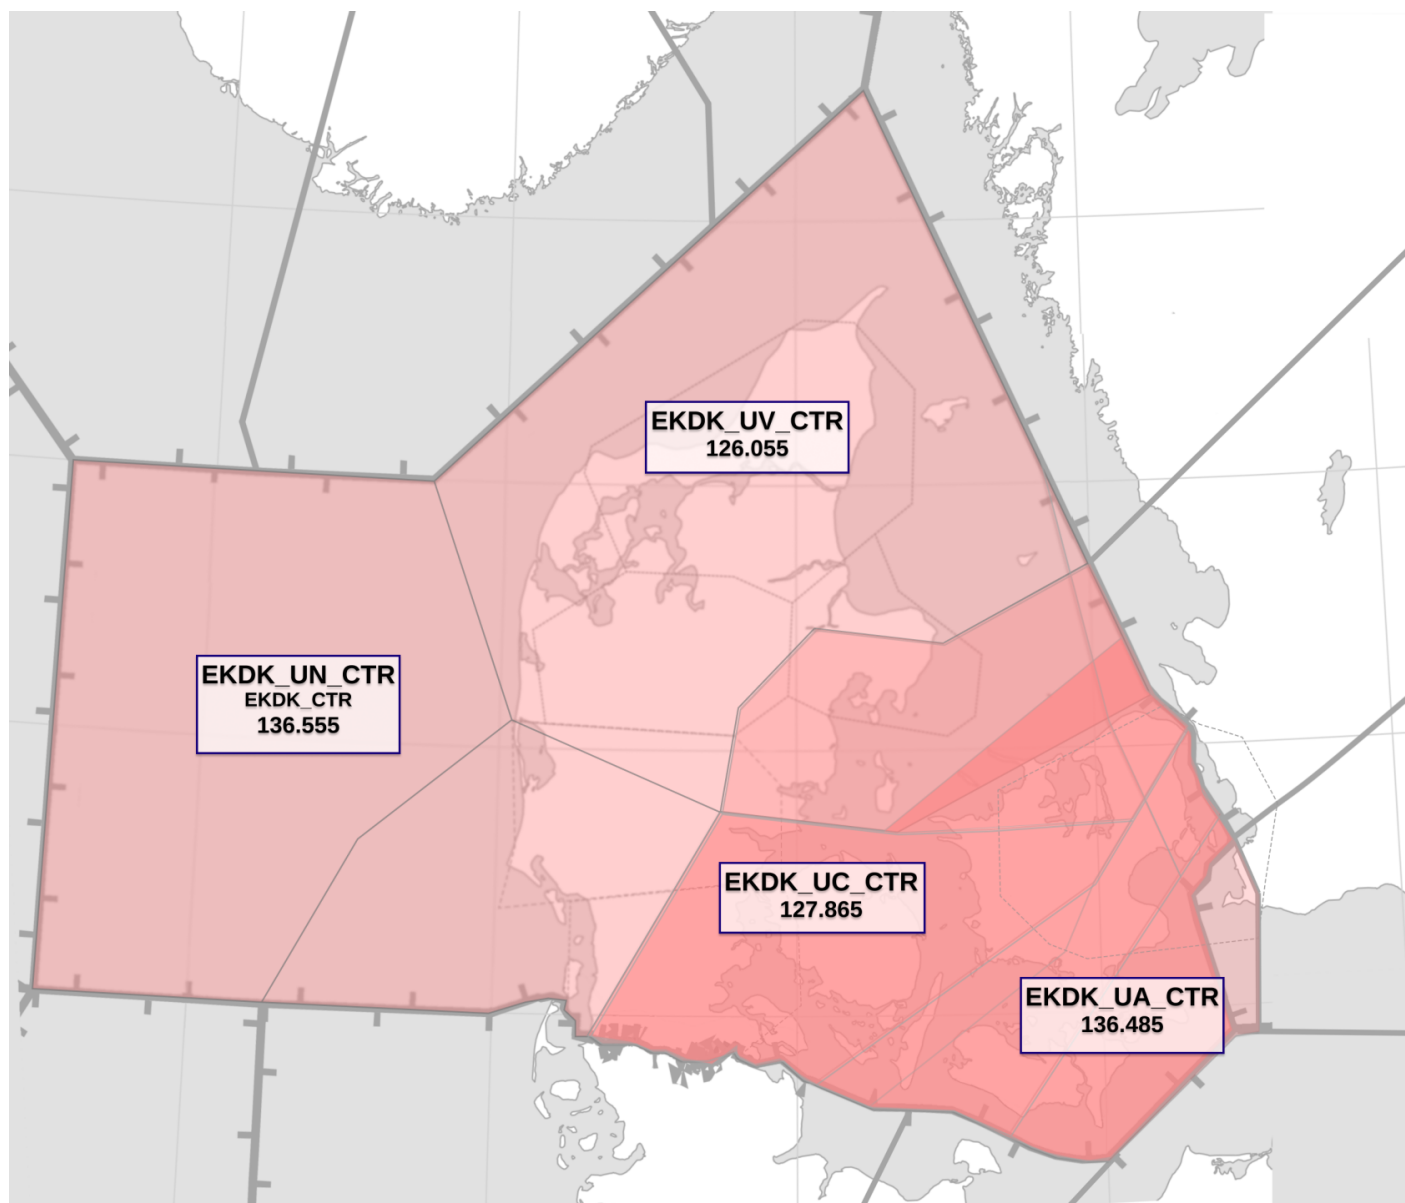

EKDK_C_CTR

- Note: sectors in Upper-East control all levels when Lower-East is offline

Airports covered when local ATC is offline

- EKRN (Roenne) - A

Bandbox

These are parent sector which only control when other areas are unstaffed: UN and UV cover all of Danish airspace, UC and UA only cover Area East.
