- [Diamond DA40-NGX Improvement Mod for FS20/FS24](#)
- [Diamond DA40-NGX Vatsim Scandinavia Pilot Training Livery](#)

YourControls for FS20/FS24

Installation Instruction

This is only for Microsoft Flight Simulator 2020 and 2024!

1. Download the automated installer from yourcontrols.org
2. Open the installer and follow the steps inside the installer

Diamond DA40-NGX Improvement Mod for FS20/FS24

Installation Instruction

This is only for Microsoft Flight Simulator 2020 and 2024!

1. Download the Improvement mod from flightsim.to
2. Open the compressed (zipped) folder and move the version you need, into your community folder
3. Search for the file DA40_cockpit.xml - this is the location inside the folder:
/SimObjects/Airplanes/Asobo_DA40_NG/model/DA40_cockpit.xml
4. Open the file you just downloaded (DA40_cockpit.xml) using a software to your liking, we used [Visual Studio Code](https://code.visualstudio.com/)
5. We want the disabled modules to be added to the active modules. You can compare to the pictures below:

Make sure to save all the changes!

```

17
18 <Include Path="DA40NGX\Customda40Logic.xml"/>
19
20
21 <Component ID="DA40NGX_Custom_Behavior">
22 <UseTemplate Name="Voltage_Indication"></UseTemplate>
23 <UseTemplate Name="Amps_Indication"></UseTemplate>
24 <UseTemplate Name="Engine_Indications"></UseTemplate>
25 <UseTemplate Name="Fuel"></UseTemplate>
26 <UseTemplate Name="ECU_FUNCTIONS"></UseTemplate>
