

Greenlandic AFIS Aerodromes (BG**) except BGGH

NOTE: All Greenlandic AFIS aerodromes require a **T2 BIRD AFIS** endorsement.

Update: With the expansion of Nuuk airport (BGGH), its procedures have been moved to a separate page: [Nuuk AFIS](#)

General Reminders

- The transition altitude in Greenland **varies between aerodromes.**
- For Greenlandic aerodromes, clearance shall first be obtained from Iceland Radio (BICC_1_FSS.) If Iceland Radio is not online, then:
 - For aerodromes underlying the **North** sector or **Gander (CZQO) OCA:**
 - Aircraft should be instructed to depart at their own discretion.
 - For aerodromes underlying the **West** sector:
 - Request clearance from the lowest BIRD West sector online (usually BIRD_W1_CTR), or the lowest South sector if no West sectors are online.
