

## Sweatbox Scenarios EKCH\_APP

Name of session	Description	Outbounds	Inbounds	Misc.	Time to Complete
<b>EKCH_TWR_Basics</b>	Basics session with light flow and time to talk. Good as introductory session.	<b>9(+1)</b>	<b>5</b>	- 1 VFR EKCH-EKCH optional via sjælland	35-40 min.
<b>EKCH_TWR_Intermediate</b>	Also pretty light, while session it self is slightly more compressed. It gives a few VFR and non-standard situations as well	<b>10(+1)</b>	<b>6(+1)</b>	- 1 VFR OYJFB from north - 1 VFR EKCH-EKKL	35-40 min.
<b>EKCH_TWR_High_Load</b>	Intensive situation, which tests everything from non-standard departures, to different VFR, non SIDs, almost the who curriculum can be tested in this session	<b>17(+2)</b>	<b>14</b>	- 2 VFR out of EKCH - OYPBP IFR DC3	1:05-1:10
<b>EKCH_TWR_VFR_Training</b>	A high intensity session with only inbounds all hitting in chaotic fashion at the same time, however correctly separated by EKDK_CTR. Good to test students overview, planning skills and vectoring technique. TWR Offline can be simulated if desired to increase the load further	<b>2(+5)</b>	<b>3(+3)</b>	-5VFR out, 3 in.	30-35min.

- All sessions are available in 04 & 22 variants with other callsigns for variation
- If in doubt of how to control, refer to vAIP SUP Appendix
- If faults, problems, or undesired situations arise, please report them to [accsca3@vatsim-scandinavia.org](mailto:accsca3@vatsim-scandinavia.org)
